

Math Club Colloquium

2014 NSF-CMACS Workshop on
Cellular Signaling at Lehman College

Speaker – Dr. Nancy Griffeth
Lehman College
Department of Mathematics

Abstract: Every January since 2010, we have held an undergraduate workshop on a quantitative biology topic at Lehman College. **The 2014 topic is Cellular Signaling Pathways.** Fifteen students are selected from the applicants to attend the workshop each year, and they receive a stipend of \$1000. Several students from Brooklyn have attended and have been valued participants. In addition, many of them have gone on to internships or doctoral programs at prestigious institutions.
